WIFI Information

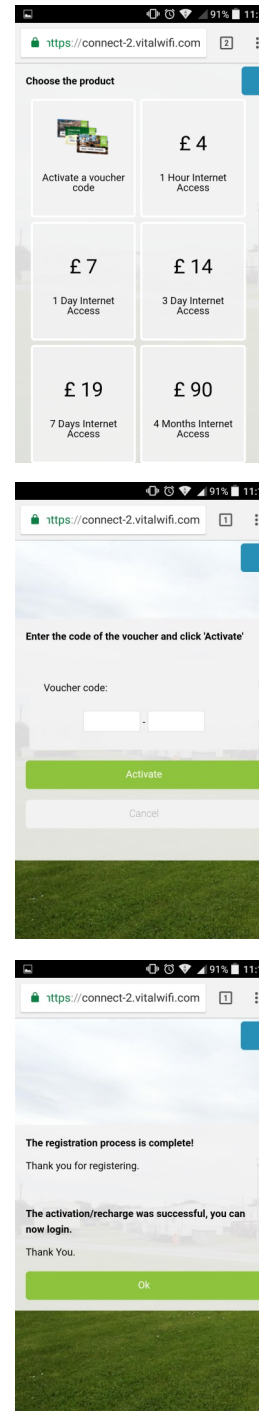

WIFI is provided across the park.

This is public WIFI and is very different from your home broadband.

These pictures and instructions will show you how to connect to the WIFI on an Android device. Other devices may be similar but not identical.

How to Connect:

1. Ensure that your device is wireless enabled and you have your WIFI turned on.
2. Connect to the network called Southfield Farm
3. The WIFI Logon page will load when you press the notification or when you load your internet browser and you type "logout.net"
4. If you are entering a voucher or buying for the first time, press register.
5. Then enter your email address and press next.
6. Now you can select if you would like to enter a voucher or buy time online through PayPal.
7. Once you have brought your time or entered your voucher, you will now be connected to the internet.
8. If you wish to log off, please go to [logout.net](#)

FAQ

Q. How many devices can I use with a voucher?

A. You can use as many different devices as you like, however, only one device can be used at any one time.

Q. What devices are compatible with the Wi-Fi?

A. All devices that have a web browser are compatible with the WIFI, i.e. Laptops, Smartphone's, iPad's etc. Playstations, games consoles and some other devices are not compatible.

Q. Why is my voucher code not recognised?

A. Check the code for any letters that may be mistaken as numbers and vice versa. Note that the voucher is not case sensitive.

Q. When does the internet time start?

A. The clock starts from the time you have logged into the internet and will expire when the duration of time purchased has elapsed.

Q. How secure is it?

The network is one of the most secure available for public access. We recommend you take some basic steps to protect your device such as keeping your anti-virus and firewall up to date.
